

# WEATHER BAR

The window ledges and wheather bars of Comhan are frequently being used by facade construction companies that are active in both housebuilding and non-residential building.

Next to standard window ledges in 15°, 10°, or 5° with a length of 6.000mm, it is also possible to supply the systems [made to measure](#) [1]. Think, for instance, of a panel of bent aluminium with a deviating angle or length. Everything according to your specifications and design.

Article No.	Description	Unit
157250	Weather Bar 30x25 mm L= 6000mm	6.00 meter
157265	Weather Bar 15x9 mm L= 5000mm	5.00 meter
157673	Weather Bar 20x12 mm L= 5000mm	5.00 meter
157674	Weather Bar 25x10 mm L= 5000mm	5.00 meter
157675	Weather Bar 32x20 mm L= 5000mm	5.00 meter
157676	Weather Bar 50x20 mm L= 5000mm	5.00 meter
157677	Weather Bar 75x25 mm L= 5000mm	5.00 meter
157678	Weather Bar 100x30 mm L= 5000mm	5.00 meter
157680	Weather Bar 30x38x25 mm L= 6000mm	6.00 meter
157688	Weather Bar 22x20x22 mm L= 6000mm	6.00 meter

157689

Weather Bar 22x46x17 mill

6.00 meter

157690

1.00 piece

## SPECIFICATIONS

Quality EN AW-6060 T6

Tolerance EN 755-1/9

Length 6 meter

Surface Mill finish
