DainoFlex®

A solid and easy-to-assemble outdoor tensioning system (140 mm) for tightly stretching various printed substrates such as PVC banners, fabrics, and printed textiles. For fabricating LED illuminated XL Flex-Face signs.

www.comhan.com

DainoFlex® PVC & Fabric tensioning system:

- For the production of LED Illuminated XL frames
- Suitable for tensioning textile and PVC
- Limited number of profiles and components
- Quick assembly
- Easy to assemble with ready-made corner pieces or mitre cut
- Optimal light distribution due to White Matt powder coating
- System suitable for Edge-lit and Backlit
- New: a **4-way cross stiffener** as additional reinforcement (on backside)

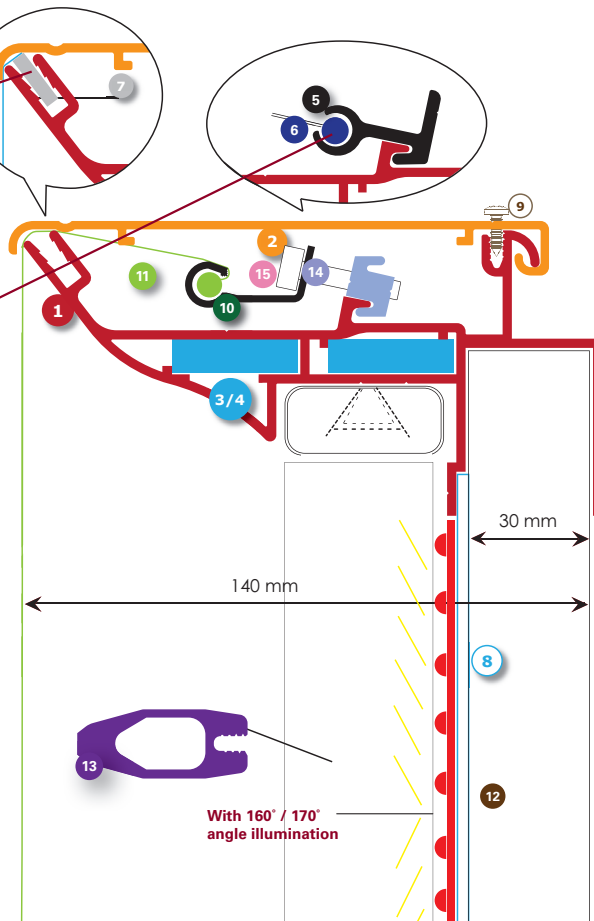

DainoFlex®		
Article No.	Description:	Surfacing:
1. 131270/130272	DainoFlex® Tension frame 140 mm	mill/white matt

- 2 131274 mill/131277 anod.**
Hinge cover DainoFlex® mill 140 mm
- 3 131275**
DainoFlex® Cornerconnectorset (2H)
- 4 131271**
DainoFlex® Connecting piece [131270](2K))
- 5 131287**
Keder tensioning profile 3050
punched with holes mill
- 6 138650**
Keder 7/2 white roll a 250 m.
- 7 131020**
Keder 14x3 Silicone transparent

- 8 ACP 2,0 mm Back-panel white matt**
- 9 130750**
Sheet-metal screw 4.8x9.5 INOX
- 10 130110**
Stretching profile 1.5 mtr mill
- 11 130115**
Clamp profile 1.5 mtr mill
- 12 107105**
Rectangular tube 40x30x3.0 mill
- 13 130156**
Reinforcementprofile LED White
- 14 130140**
Tension block
- 15 130147**
Tension bolt M6x40 INOX

Also available: LED White DainoFlex® with corner pieces (art.nr. 131279)

- Available as an **easy-to-assemble DIY kit** thanks to the new LED White corner pieces
- Faster processing time when building XL outdoor banner frames
- With pre-assembled corners straight cutting of all profiles
- LED White coating for **a smooth, bright and more equal light distribution** (Edge-lit and Backlit)
- **Welded and powder coated corner pieces without sharp mitre cuts** (exactly 90°, no light leakage)
- Screwing is sufficient, corner pieces including stainless steel mounting screws

Features:

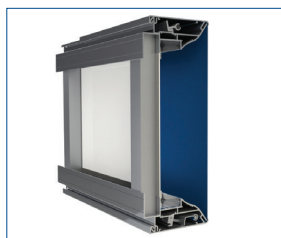

- Single-sided tensioning system (**140 mm deep**) with hinge cover profile
- Available from stock in lengths of 6100 mm in mill finish or **LED White Matt (RAL 9003)**
- Parts available from stock: **pre-welded corner pieces LED white Matt (100x100 mm)**, tensioning and clamp profile, keder tensioning profile, blocks and bolts
- **On request:** profiles cut to size, bended, powder coated or anodised (cover profile)
- Also available: LED illumination sets (**Edge-lit or Backlit**)
- ACP Back panels: 2 mm thick (white / white) with connecting strips with 3M tapes

New: 4-way cross stiffener for square tube 40x30x3.0

Recently added to our range: a 4-way stiffener with which the construction tubes at the back of the frame can be connected to each other crosswise! Suitable for DainoFlex® as well as for BillBoardFlex®, preventing side profiles to bend in.
